

October 2021

Dear Parent/Carer

As part of the A Level Design and Technology course, students are required to conduct a variety of design and make activities in preparation for their coursework, which begins at the end of Year 12. These tasks all include the use of a range of materials, from modelling materials such as foam to the use of plastics and timbers.

In order to allow the students to take their practical work home, we must ask for a contribution of £5 towards the cost of materials. If we do not receive this contribution your child will still be able to complete their projects, but they won't be able to take them home as we may have to recycle the materials. Please logon to ParentPay to make a payment.

Please do not hesitate to contact me if you have any questions or concerns regarding this.

Yours sincerely

Gemma Kidd
Head of Design Technology
