

September 2021

Dear Parent/Carer

As part of the engineering course, students are required to conduct a series of design and make projects. An important part of the coursework is the practical outcome, which we hope students are proud of and would like to take home. During the course of Year 10, students will be making a variety of practical projects to support their learning.

In order to allow the students to take their practical work home, we must ask for a contribution of £2.50 towards the cost of materials. If we do not receive this contribution your child will still be able to complete their project, but they will not be able to take it home as we may have to recycle the materials. Please log on to ParentPay to make a payment.

Please do not hesitate to contact me if you have any questions or concerns regarding this.

Yours sincerely

Gemma Kidd
Head of Design Technology
